REASON FOR RUNNING FOR OFFICE

I am currently on the school board and I am running for re-election. We have many problems and challenges in our schools, including bias in our disciplinary system, the need for renovation of many of our buildings and construction of several new schools, finding and creating curriculum materials that reflect the diversity of our students and families, and teaching all of our children effectively. I am proud of the progress that we have made on these issues and many others, and hope to continue this work and keep us moving forward together.

TOP 3 PRIORITIES

My top three priorities for the coming four years are:

Keep our best educators by raising pay and improving working conditions

Address issues of equity so that all of our children receive the best possible education

Move forward with the construction of a new Northern High and two new elementary schools, and with the renovation of many of our existing school buildings
